 HR-10020 Zagreb **E-mail:** marus@zg.t-com.hr
www.marus-atm.hr

The company was established in the year 1988 in Zagreb, the capital of Croatia. It grew from 3 men to **20 people** in 2007. and now is one of Croatian leading companies in process control instrumentation. We have everything what is necessary for technical solving of control circle. **Engineering, projecting, manufacturing, mounting, commisioning, service and maintenance.** Profiles of our employees are from mechanical and electro engineers, technicians, montage workers in facilities of process industry up to economists concerning commercial issues.

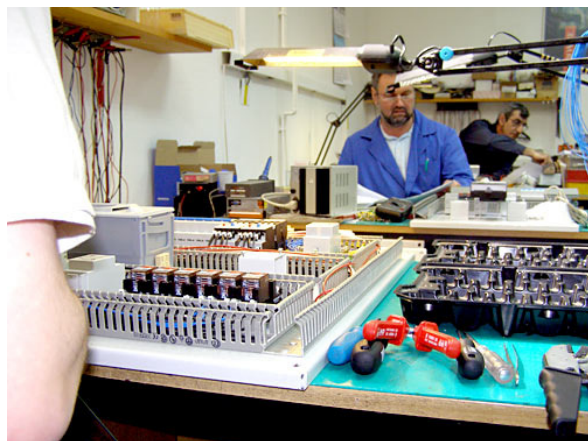

At the moment we are representing a group of renown international companies, to cover needs of the Croatian market as well as the market of former Yugoslavia countries.

The most of all we control, measure and register

- **temperature**
- **pressure**
- **flow**
- **level**
- **humidity**
- **density etc.**

For those elements in control circle that we do not produce, we try to find a quality manufacturer to use its products and also to represent it in Croatian market and markets of former Yugoslavia as well.

We also produce pressure transmitters in **Ex-version** and we are authorised by State offices to work in Ex-zones and to repair instruments in Ex-version from other producers. The automatisaton we provide is equipped with SIEMENS, BECKHOFF, CYBRO, MITSUBISHI PLC devices with VISU systems, INTOUCH, iFix etc.

We sell our services to Croatian biggest companies like INA (oil industry), PLIVA (pharmaceutical industry), HEP (District Heating Plants), food industry (meat, milk, brewery, bakeries etc.), cement industry etc. as well as in former Yugoslavia (Slovenia, Bosnia and Herzegovina, Serbia and Macedonia). Today is Marus-ATM well-known company in it's branch. Respectable reference list of over 600 customers in this area proofs that fact.

Within Marus-ATM operate MarusLab, laboratory accredited for measurement and calibration of temperature and pressure gauges.

MarusLab is EN/ISO 17025 certified by State office for metrology.

The company is also ISO 9001:2000 certified by Det Norske Veritas.

We usually present our products and services at Zagreb Fair in Croatia and very often at fairs in Serbia, Bosina and Herzegovina, Macedonia.
